WELCOME TO JÖNKÖPING UNIVERSITY

Truly International

Jönköping University is characterized by internationalization, an entrepreneurial spirit and collaboration with the surrounding society.

Education and research are carried out at:

These five specialised and well-focused schools, each with a distinct profile, address a portfolio of exciting interlinked topics relating to some of the major issues of our time: internationalization, entrepreneurship, business renewal, innovative learning, a holistic approach to health throughout life, an interface between the economy and technology in the information society, and production systems for small- and medium-sized enterprises.

In addition, Jönköping University works towards a sustainability strategy which emphasizes the importance of taking responsibility as a higher education institution and ensuring that our activities contribute directly and indirectly to sustainable development - environmentally, socially and economically.

Jönköping University works to actively promote equal rights and opportunities to students participating in or applying for education, regardless of gender, ethnicity, religion or faith, disability or sexual orientation.

BEFORE YOUR STUDIES

at Jönköping University

There are many things to consider before travelling abroad. Please visit the Swedish Migration Agency's website migrationsverket.se for information regarding residence permits, visas and working permits etc.

MEDICAL INSURANCE AND CARE IN SWEDEN

Before arriving in Sweden, you need to ensure that you have adequate health insurance coverage. Below you will find some general information about insurance, including information about insurance that Jönköping University provides for you, which varies depending on a student's country of origin and length of residence permit.

The insurances that Jönköping University provides (Kammarkollegiet's FAS plan) applies during direct travel between the home country and Sweden, as well as two weeks prior to the start of studies and two weeks after the end of studies. The insurance applies twenty-four hours a day in Sweden only.

The insurance reimburses necessary and reasonable costs for *emergency medical care*. It does not cover medical consultations for symptoms or illness that the insured person had before arriving in Sweden. If you are in need of medication for ongoing treatment of a physical or mental illness, make sure to bring medication that will last for the duration of your stay in Sweden from your home country or purchase an insurance that will give you. You also need a verification from your doctor that you need to bring these medications in to Sweden.

The insurance included will not cover vaccinations and follow-up assessments of chronic diseases. Furthermore, the insurance will not cover prescription of ongoing treatments.

The insurance also covers *emergency dental care* up to an amount of 3,000 SEK per year.

Sweden has reciprocal agreements for public medical benefits with some countries. To find out whether your country has such an agreement, you should contact the local social insurance office in your home country, or visit the Swedish Social Insurance Office's (Försäkringskassan) website fk.se for more information.

NORDIC, EU/EEA, SWISS CITIZENS

If you are a citizen of any of the Nordic, EU/EEA countries or Switzerland, you have access to essential health care if you register beforehand at a social insurance office in your home country and obtain a European Health Insurance card (EHIC). With this card you only pay the normal patient fee, just like all other Swedes. EU citizens who cannot obtain the EHIC for various reasons should purchase a private health insurance for at least one year. If you are an exchange student, the patient fee will be reimbursed by the insurance if it is an emergency.

More information and specific rules can be found on the Swedish Social Insurance Office's (Försäkringskassan) website fk.se. The University will guide you through this process upon arrival.

NON-EU/EEA CITIZENS WITH A RESIDENCE PERMIT VALID FOR MORE THAN 12 MONTHS

As a visiting student, if your study program is longer than one year, you are entitled to the same health benefits as Swedes. However, you must first register at the local tax office (Skatteverket) and obtain a personal identity number (personnummer) as soon as you arrive. The university will guide you through this process upon arrival.

NON-EU/EEA CITIZENS WITH A RESIDENCE PERMIT VALID FOR LESS THAN 12 MONTHS

If you have a residence permit valid for a period of less than a year, then you are not able to register at the local tax office, and you do not have automatic access to health care. However, Jönköping University provides students in this category with emergency health insurance coverage through Kammarkollegiet's FAS plan. Please note that the FAS insurance only covers emergency medical and dental care. Be sure to read the FAS Terms and Conditions to learn what is covered. You may want to take out an additional health insurance before leaving from your home country. This especially applies to students who are traveling with pre-existing medical conditions or have ongoing medical treatment.

If you need to seek emergency medical and dental care you will need to pay for the treatment yourself and later fill out a claim form to be reimbursed by Kammarkollegiet.

You can read more about terms and conditions/coverage in this insurance policy at ju.se/en/study-at-ju/studying-at-jonkoping-university/insurances

GOOD TO KNOW

From A to Z

ACADEMIC CALENDER

The academic year consists of 40 weeks, divided into two semesters. Please find the academic calendar for each school at the student web, under "Studies".

ALCOHOL

In Sweden you may only buy alcohol in a shop called Systembolaget, systembolaget.se. You cannot buy alcohol in supermarkets or any other shop. The kinds of drinks you are able to purchase at normal shops contain very low percentages of alcohol. In order to buy alcohol at Systembolaget, you must be 20 years old and be able to verify your age by showing a valid ID. Non-European residents should note that only a valid passport counts as proof of ID. Ask your nearest Systembolaget shop about valid IDs within Europe.

Alcohol can also be purchased at restaurants and pubs. You must be at least 18 years of age in order to do this.

Note that there is zero tolerance towards drunk-driving in Sweden.

If you are concerned about your drinking habits or have any questions, please contact the Student Health Care.

ALLEMANSRÄTTEN – "RIGHT OF PUBLIC ACCESS"

Allemansrätten, or the right of public access, gives everybody the right to use private as well as public land and waterways for certain activities such as hiking, jogging or boating, provided that no damage is caused to the land. You must also show consideration to other people and animals and respect the wishes of private landowners. This means that you cannot walk or sail too close to houses and private gardens. It is also a good idea to ask the landowner if you plan on pitching a tent for longer than a short period of time.

BANKING IN SWEDEN

Bank and services

It is strongly recommended that exchange students staying in Sweden for less than six months make banking arrangements from their home bank. Students staying in Sweden for less than 12 months will experience difficulties to open a bank account. Most credit cards are accepted in Sweden. If you have a credit card from your bank in your home country you can use it in Sweden.

If you are staying in Sweden for a longer period it will be much easier for you to manage your day-to-day financial matters, such as paying you rent and other bills, if you have a banking relationship with a Swedish bank.

Do not bring large amounts of cash to the bank. Money laundering legislation requires the bank to ask questions about large cash transactions. If a customer does not present identification or provide a satisfactory explanation as to why the customer wants the bank to perform a certain service, the bank is not permitted to perform the requested service under the risk of criminal penalties and sanctions.

Do not use traveller's or bank cheques.

In Sweden, banks are generally open Monday to Friday 10 a.m.–3 p.m. Some banks have extended opening hours on Mondays and Thursdays. There are several different banks available in Jönköping. There is no specific bank connected to Jönköping University. Most Swedish banks will charge you fees for different services. Ask about fees before choosing your bank.

Opening an account

Different banks require different documentation for international customers. Requirements vary, but normally banks require a minimum stay of 12 months as well as a Swedish personal identity number (personnummer) for some or all services. Some banks allow students who are staying for fewer than 12 months to open a bank account with limited services.

When you apply for a Swedish bank account the following documents is required:

- Passport
- Residence permit
- Address information (rental agreement)
- ...and/or Letter of Acceptance from Jönköping University
- Information about tax residence etc
- Swedish ID-card if you have obtained a Swedish personal identity number
- Filled in application for bank account

When opening a Swedish account, ask for your IBAN code and SWIFT code, which enables you or your family to easily transfer money from your home account to your Swedish account.

Swedish personal identity number

A Swedish personal identity number (personnummer) can only be obtained if you have a residence permit valid in Sweden for 12 months or longer. You apply for the Swedish personal number through the Swedish Tax Agency (Skatteverket) once you arrive in Sweden.

Address to Skatteverket Jönköping: Trädgårdsgatan 5, 533 16 Jönköping (Near campus).

Contact the Service Center at JU when you have received your personal number. Service Center will help you change your number in all systems and order a new JU card.

For those interested, there is the Buddy Programme. A Buddy is normally a JU student who gets matched with an international student before arrival to Jönköping and helps students with all questions they might have about student life in JU and Jönköping in general.

The Host Family Programme is also available and is arranged by the Student Union's Committee- IAC (Integration and Activity Committee). In this program students get matched with Swedish families.

COMPUTERS

There are several computer labs on campus, in all the schools and the library. You will receive your login information during introduction week, which will allow you to use all the computers as well as the programs on them. You can access to the computer labs after normal hours.

CREDIT CARDS

All major credit cards are accepted in Sweden when supported with a passport, other proof of identify or, if available, chip and pin. It is also possible to use them in selected cash dispensers.

DENTAL CARE

Before leaving for Sweden it might be wise to have a thorough check-up at your dentist. It can be both difficult and expensive to get an appointment with a dentist in Sweden. Should you still need to see a dentist during your stay in Jönköping, the public dental service is Folk tandvården.

If you are over 18 and have a driving licence from your home country, you may use it in Sweden for a maximum period of one year. Note that EU and EEA driving licenses are valid in Sweden and you do not need to trade them for a Swedish license.

Switzerland and Japan are special cases as licenses from these countries can be exchanged for a Swedish one without taking a driving test. Read more about the Swedish driver's license on transportstyrelsen.se (Swedish Transport Agency).

Sweden drives on the right side of the road, and all passengers in a vehicle must wear seat belts at all times. You must also use dipped headlights or special daylight driving lights at all times during daytime.

Sweden's drinking laws are strict. The police can at any time stop a vehicle and perform a breath test on the driver. Drinking and driving in Sweden is not tolerated. When driving in wooded areas, please look out for wildlife, such as reindeer and elk. From 1 December to 31 March it is a legal requirement to fit all vehicles with snow tires when the driving conditions call for it.

DRUGS

The Swedish police take the consumption and/or possession of illegal drugs in Sweden very seriously. The use and/or possession of narcotic drugs is regarded as a criminal offence according to Swedish law and is punishable by fine or imprisonment. Swedish culture does not tolerate the use of drugs, including marijuana, cannabis, tramadol and stronger drugs such as cocaine. The use of drugs is not tolerated in the Swedish society and this includes student life.

ELECTRICITY

Sweden uses 220 volts and 50 cycles (Hz), which is the European standard. You may need a transformer and/or an adapter for your electrical appliances, since Swedish outlets differ from, for example, both American and British ones.

HEALTH CARE AND THE HOSPITAL

Before seeing a doctor it is recommended that you know whether your country has a national insurance agreement with Sweden and, if so, what this insurance covers. If your country does not have an agreement with Sweden, you may want to take out an additional insurance, depending on whether or not you have a pre-existing medical condition and/or require prescription medications. See more here about insurances. (<https://ju.se/en/study-at-ju/after-admission/insurances.html>). When you see a doctor, always bring your passport with you and, if you are a European citizen, your European Health Insurance card. Note: Antibiotics are prescription drugs in Sweden.

For urgent medical care you are advised to call the nearest care centre, "vårdcentral", or hospital, "sjukhus", before going there to seek treatment.
